Eisenhower Matrix

	Urgent	Not urgent
Important	**Do (MVP)** - Pick a class from a list; its grading weights fill in automatically from a template - Prediction mode 1: no scores yet, so what do I need to reach my target grade? - Prediction mode 2: enter my marks so far, so what do I need on the remaining parts? - Welcome page (“Welcome, name”) with clickable buttons - Save classes, weights, and scores in SQLite	**Schedule (V2.0+)** - Professors upload syllabus templates - Login with sign up and password reset - GPA prediction across classes - Homework list per class with priority 1-5, colors, and time estimates - Calendar and habit tracker
Not Important	**Delegate (use a library)** - Website pages: Flask - Database: sqlite3 - Reading uploaded syllabus PDFs: pypdf - Page styling: Bootstrap - Password hashing and reset emails: existing Python libraries	**Delete (cut it)** - Mobile app - Sharing grades or leaderboards - Paid or premium features - Chat or social features
